

SMALL HOUSE, BIG IMPACT

ACCESSORY DWELLING UNITS

Housing Trust Silicon Valley is launching an ADU pilot program providing workshops and financial assistance for homeowners wanting to build an ADU.

The workshops will be led by local practitioners (land use consultants, designers, builders and lenders) that will answer the following questions for homeowners:

- Can I build an ADU on my site?
- How do I put a team together?
- How do I hire a builder and manage construction?
- How do I pay for an ADU?
- I'm a landlord, now what?

Workshops will occur once per quarter consisting of a free half day of instruction and the opportunity to speak to practitioners. To qualify, attendees must attend a free one hour orientation. Dates will be announced in June 2018—to receive program updates, please register here:
